Routledge Handbook of Environmental Policy in China

(Routledge, 2017)

by the editor **Eva Sternfeld** (Freie Universität Berlin)
and a contributing author, **Jarmila Ptáčková** (Oriental Institute)

During the last decades, China has accomplished unprecedented economic growth and has emerged as the second largest economy in the world. This ‘economic miracle’ has led hundreds of millions of people out of poverty, but has also come at a high cost. Environmental degradation and the impact of environmental pollution on health are nowadays issue of the greatest concern for the Chinese public and the government.

Routledge Handbook of Environmental Policy in China focuses on the environmental challenges of China’s rapidly growing economy and provides a comprehensive overview of the policies developed to address the environmental crisis.

When: Monday, October 9th, 16:00–18:00
